Finding Color Processing DVD

An instructional Photoshop guide in the art of manipulating colors the TriCoast way

FINDING COLOR by TriCoast Photography provides photographers with detailed “secrets” of TriCoast’s post-processing, which gives them their unique style. With over 2 hours of in-depth screen captured videos, the viewer will learn and understand TriCoast’s thought process with each image. From simple black & white conversions to detailed, multi-layered masks, you will watch TriCoast process some of their most popular portraits. A must for any level of photographer, this DVD covers both wedding and portrait images showing you how easy it is to create amazing images from a standard photograph.

Over two hours of in-depth videos

INCLUDES:

Using PS and ACR to complete the images
TriCoast Glow
Layer Masks
Infrared processing
How to over expose on purpose
Creating award winning portraits from trash images
And Much Much More!!!
